

ISOPHOS

INTERNATIONAL SCHOOL ON HYBRID AND ORGANIC PHOTOVOLTAICS

2018

Castiglione della Pescaia
(Tuscany - Italy)

September 2 - 6, 2018

The 12th edition of the International School on Hybrid and Organic Photovoltaics (**ISOPHOS®**) will be held from the 2nd till 6th of September 2018 in the wonderful atmosphere of Castiglione della Pescaia (Tuscany, Italy), an ancient seaside town grown around a medieval fortress and a large fishery, from which it got its designation. ISOPHOS 2018 is organized by the Center for Hybrid and Organic Solar Energy (**CHOSE**) of Lazio Region-University of Rome Tor Vergata and the Startup **Cicci Research**.

The school focuses on recent advances in science and technology of organic and hybrid photovoltaic devices, including perovskites, dye solar cells, polymers, and the use of Graphene and other 2D materials for energy applications. Both experimental and theory/simulation descriptions of the organic and hybrid PV will be presented.

Introductory and advanced lectures, held by world-recognized experts, will lead the attendee to this fascinating world. A unique opportunity to meet people from the different areas of research (chemistry, physics and engineering) and discuss about the subject. The school is dedicated to PhDs, Post Docs and researchers who are interested to acquire an updated knowledge in these fields. A special session will give to students the opportunity to present their own work to share ideas and solutions. Moreover, representative of several EU projects will be present at the school to allow and easy interaction between different research activities

The school is sponsored by the European research projects CHEOPS, Graphene Flagship, MAESTRO, EPRESSO and APOLO, the European Energy Research Alliance (EERA), the Italian projects PRIN-PERSEO and "Research on innovative photovoltaic technologies" funded by the Italian Ministry of Economic Development.

Confirmed School Speakers:

- Francesca **Brunetti**, CHOSE Univ. of Rome *Tor Vergata, Italy*
- Lucio **Cinà**, **CICCI Research** srl, Italy
- Aldo **Di Carlo**, CHOSE Univ. of Rome *Tor Vergata, Italy*
- James **Durrant**, Imperial College London, *United Kingdom*
- Vida **Engmann**, University of Southern Denmark, *Denmark*
- Eugene **Katz**, Ben-Gurion University of the Negev, *Israel*
- Morten **Madsen**, University of Southern Denmark, *Denmark*
- Maria Laura **Parisi**, University of Siena, *Italy*
- Manuel **Quevedo**, University of Texas at Dallas, *USA*
- Adalgisa **Sinicopri**, University of Siena, *Italy*
- Pavel **Troshin**, Skoltech, *Russia*
- Sjoerd **Veenstra**, Solliance solar research, *Netherlands*

ABOUT THE REGISTRATION:

- **Early-bird FEE** (15th July)
€ **650,00** Unit price all inclusive (lectures, accommodation, lunches, excursions, dinners and breaks). Late fee € 690,00
- **REGISTRATION DEAD LINE:**
15th AUGUST 2018
- **REGISTRATION LINK:**
